LOCAL MATTERS. Ten Cents a Week.—The Intelligencer is urnished to subscribers in any part of the city or neighborhood at ten cents a week.

The Centennial Schiller Demonstration, -Yesterday, one hundred years ago, the great German poet, Schiller, first saw the light of day. The Germans of this city, deemed the occasion one worthy of a public demonstration and commemoration. So all classes and societies of the population joined in celebrating the Pleas Court, for Belmont County, have been centennial anniversary of the birth of a mighty sentenced, Wilson for three and Johnston for genius-whose name will be honored as long as seven years to the Ponitentiary. The Sheriff the German language is spoken. At an early has escorted them to head quarters. hour in the morning, the firing of cannon from the hill east of the city, commenced and continued during the whole of the forenoon .-About ten o'clock in the morning a procession was formed in front of the Melodeon Hall, and preceeded by a Brass Band, moved up Main Street, as follows: First came the Virginia State Fencibles, (by invitation;) then the German Riflemen, followed by the German Turners. Immediately after the Turners came a wagon containing a number of little boys, Turner scholars, Upon the canvass stretched around the bed of the wagon were inscribed the lines, "BIEGE DEN BAUM WEIL ER NOCH JUNGIST."

(Bend the Tree while it is young.) "DURCH BILDUNG KUR FREIHEIT." (Through Education to Freedom.) "DURCH UESUNG ZUR KRAFT." (Through Practice to Power.)

Then came the Mannaerchor and Harmonie Singing societies, followed by a wagon drawn in a bower of evergreens and artificial roses .-Next the Orator of the Day, the German Liter-The procession marched through the principal streets, forming an admirable military and civic display, which we do not often witness. A drizzling rain brought the line back to the Melodeon sooner than was intended, and assem. bling within the Hall, a spirited song, with appropriate accompaniments, was sung, and then an Ocation was delivered by the Rev. William Helfer. Owing to a deficient education, we are unable to speak of the merits of the Oration, but judging by the attention of the audience and the enthusiasm occasionally displayed, we presume the effort was highly satisfactory.

In the evening a grand Concert and Ball, was given at the Melodeon, in which all participated with a wanton relish and right good will, that made the old Hall vibrate again. The music was excellent, and the swaying of crinoline, the clasping of bodices, the tripping through the mazy waltz caused ones heels and head to tingle irresistibly to the voluptuous influences .-They danced all night till broad daylight, and then gallantly gallanted the girls and matrons "home in the morning."

A Left-Handed Puff .- Advertising, as a general thing, as all business men will bear witness, invariably brings about good effects .-We have a case before us which is an exception to the general rule, and therefore worthy of note. Not long since a party, whose name occurs below, moved into a house near the southwest corner of Market and Quincy streets, and there opened a sort of boarding house. The house was visited frequently by a number of bachelors, somewhat advanced in life. Their visits may have been of a legitimate character, and we are not sure but some of them boarded in the house. However, some people seemed to think that the establishment was not just the reputable thing, and a day or two ago the following advertisement appeared in the Evening

THE RAT EXCHANGE, near the corner of Quincy and Market streets, has been opened under the superintend-ence of Nichols, Kimberly, hiarris, Wells & Co. The public will take notice.

Of course the publication of the above created no little indignation among those whose names were mentioned, and every effort was made to find out who had procured the insertion of the card. Mr. Kimberly, one of the parties named in the card, met Capt, Mulrine on Wednesday evening, and in a jocose manner the latter confessed that he had prepared the advertisement. Some sharp words followed, and Kimberly went to Ald. Wright's office and sued Mulrine for abusing him. A number of witnesses were summoned, and Kimberly, failing

dle of his back and succeeded in attaining its object shortly after it reached the ground. He had a feather in his cap and a red flannel epalette upon each shoulder. No man in the procession was more sincere.

Snupping a Pistol. - Night before last, two young men, whom we learn are students attending Bethany College, whilst playing a game of billiards at the McLure House Saloon, became engaged in a quarrel. One drew a revolver and snapped it twice at the breast of the other. The sight of the ugly weapon caused a precipitate retreat from the room. The man who held the pistol had the weapon taken from MONDAY, OCTOBER 10, 1859! his possession. We heard it suggested that the whole thing was a sham agreed upon by the parties for the sake of a little local notoriety, or merely for the fun of the thing.

"Imperence!"-The following purports to be from a young lady resident of La Belle town:

Mesers. COMMON SENSE rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing; let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every 4.0.2 quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as distriben, dysentery, dyspepsia, and for the various (evers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas, from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

CHARLESTOWN, Nov. 10.-The court remained n session until 9 o'clock, when the jury in the case of Cook rendered a verdict of guilty on the hange of murder and insurrection. Before the ary retired to reconsider upon the verdict Mr. Voorhees delivered a most powerful appeal in behalf of the prisoner, which drew tears from the eyes of the most embittered of his auditors. This morning a motion for a new trial for Cook made by his counsel was argued and finally overruled by the Judge.

Mr. Harding, the District Attorney refuses to ign a nolle pros in favor of Stevens, demanding that he shall be tried by the Virginia State Court. The court has, however, handed the the prisoner over to the U. S. Marshal, paying no attention to the objections of Mr. Harding. It is rumored that Green, Coppee, Copeland and Cook, will all be executed on the same day with Brown.

Sr. Louis, Nov. 10.-The overland mail of the 17th, arrived last night:

Gen. Scott arrived at San Francisco Sunday morning, the 16th. He received a most enthu-siastic reception. As the steamer entered the bay the battery at Fort Point fired a sninte, being the first guns ever fired from that fort, which was followed by a like welcome from the batteries on Alcarra's Island and the revenue cutter Wm. L. Marcy. On the approach of the steamer Golden Age to the wharf the steamers Sonora, Northerner, Clipper, Twilight each fired an honorary salute. Various military companies of the city and thousands of citizens awaited his landing at the dock. Gov. Meller escorted the General to an open carriage which, attended by military, passed through the principal streets of the city, which were decorated with flags and various devices and thronged with multitudes of people whose cheers were almost ncessant, to the Oriental Hotel where being loudly called upon he made a short speech, remarking that the reception accorded to him its unanimity and universality had so astonished and confounded him that words were inadequate to express his sentiments. Speeches were also made by Gov. Weller, Gen'l Clark, and E. D. It was understood the General would leave for Pugets Sound on the afternoon of the 17th on the steamer Northerner.

Among the passengers to leave on the steamer of the 20th were Gen. Lane, Senator Lansing; Mr. Stont, Congressman elect from Oregon, John Burch, Congressman elect from California, Hon. C. McKibben, who it is understood will visit Washington with a view to being a candidate for Clerk of the House, and Bayard Taylor.

Maj. Dodge, Indian Agent in Utah, arrived at San Francisco with the survivors of the Mountain Meadow massacre-five women and five children.

The overland mail of Sept. 26th reached San Francisco on the 16th, by steamer from Los Angelos, 20 days out.

There were indications of another fillibuster expedition against Sonora, organizing in San

Business continued dull. Prices unchanged. Trade with the country showed no improvement and city jobbers were buying nothing. Official returns of the wheat crop from fourteen counties show the product to be three and a half million bushels against one million and three quarters from same counties last year. This mmense increase is supposed to be general, which will render it necessary to export half he wheat product to New York or Australia. over eight thousand bushels have already been shipped to Australia.

Salled, on the 14th, the ship David Crocket, for New York, with a cargo of wheat. Twelve or fourteen vessels are over due from

Atlantic ports. Lieut. Mowry, from Arizona, who came pasenger with this mail, reports continued depredations at mail company's stations by Indians. A force of two hundred troops had gone to chastise the Apaches.

KANSAS ELECTION.

LEAVENWORTH, Nov. 10.—The returns from the interior come in slowly. Leavenworth and Atchison counties give Democratic majorities. Douglas, Wyandotte, Shawnee, and Jefferson counties are reported as giving Republican majorities. The counties yet to be heard from, gave large majorities for the Constitution, which renders the election of Parrott to Congress,

New York, Nov. 10 .- The Tribune says that Senator Douglas is lying seriously ill with an attack of the gout in the stomach, which has gradually ascended from the feet to the present dangerous position. His strong constitution is the great reliance of his physicians.

WASHINGTON, Nov. 10 .- Reliable information just received from Utah states that Judges Sinclair and Cradlebaugh are on their way to Washington. Mr. Hartwell, the Secretary of the Territory, arrived here yesterday. It appears that there continued to be frequent murders and assassinations, but no arrests are made, as the Mormons systematically obstruct the course of justice. The opinion prevails among the Gentiles that the courts will be useless un less the government shall change its policy. Gen. Johnston is so restricted by instructions that he cannot move to afford the necessary protection. The continuance of the army at Camp Floyed only serves to add to the prosperity of the Mormons by means of the large sums of money spent in the territory for sup-

New York, Nov. 10 .- The steamship Atlantic has arrived with California dates to the 20th ult. She brings over \$1,500,000 in gold. The Atlantic left Aspinwall on the 2d inst, up to which time, the Vanderbilt steamer North Star, hence on the 20th ult., had not reached Aspin-

DOCTOR JONES

DOCTOR JONES

Would say to the diseased of body and mind, who wish to be curen of their maladies, that his stay here is limited to the first of December; hence the necessity of making immediate application at his office. He solicits patients who have been given up everywhere else as incurable. The reader might here ask, does he really cure such cases in Wheeling? In reply he would say, he has cured and is curing every day just such cases. He has cured and is curing a class of discases that have bailed the skill of the medical profession in all ages of the world. The reader might here inquire by what means such cures are performed? Not by irritating the delicate membranes of vital organs by druging the stomach, but by direct application of the positive and negative polarities of Electricity. Again, it might be asked, has not Electricity been employed as a remedial agent for years both in Europe and America, with miliferent results? And, are not numbers now using it in our milist with no better results? This is all very true, and when we consider the manner in which it has been applied the results have been more favorable than could have been expected. It has been considered heneficial in a few cases only and uncertain even in those. There has been no fixed principles for applying the agent, and therefore no uniform results could be anticipated, but owing to the friendly relation existing between Electricity and health, remarkable cures have sometimes been performed. The current is generally applied through the hands or feet in such power as to convulse the whole nervous and muscular system and frequently produce irreparable injury. Sometimes it is applied by metalle conductors to different parts of the body, which is equal to a process of canterization. Dr. Jones has seen the effect of such treatment for years and the result has generally proved injurious to the patient, conclusively proving that no one should assume the responsibility of administering so powerful a remedy without understanding its effect upon t

to give a series of conversations explaining the electric laws of life, health and disease; also, a full exposition of the important discovery in the application of Electricity for the cure of diseases. Those desiring to join the class shauld make immediate application. oct24-1m
